

CAPABILITY STATEMENT

SPECIALISTS IN ELECTRICAL, ENERGY & INFRASTRUCTURE SIGNAGE

WHO WE ARE

Founded in 1982, Barrier Signs Pty Ltd has been a trusted Australian manufacturer and installer of high-quality signage for over 40 years. Based in Taree on the Mid North Coast of NSW, our modern manufacturing complex is equipped with the latest digital printing and fabrication technology.

With a team of 40 full-time skilled employees, we design, and manufacture all signage in-house, maintaining full control over quality, safety, and delivery timelines. Our extensive experience spans across government, corporate, industrial, and infrastructure sectors, with a growing specialisation in electrical and energy projects throughout regional and metropolitan Australia.

SUPPLY PARTNERS

CORE CAPABILITIES - ENERGY & ELECTRICAL SIGNAGE

Design & Engineering

- Design and production of electrical hazard and high-voltage signage compliant with AS/NZS standards.
- Custom substation, switchyard, and renewable energy site signage.
- Collaboration with engineers and project managers to meet compliance, visibility, and durability requirements.

Manufacturing Excellence

- In-house fabrication using aluminium, composite, and PVC substrates.
- UV-resistant, corrosion-proof, and reflective materials designed for harsh environments.
- Production of engraved, anodised, and etched metal signage for control panels and asset identification.
- Supply of polycarbonate and acrylic signage for electrical cabinets and switchboards.

COMPLIANCE & QUALITY

- Full compliance with AS/NZS 1319, AS 1744, and relevant WHS regulations.
- ISO-aligned quality systems ensuring consistent manufacturing standards.
- Adherence to energy provider branding and environmental specifications.
- ISO 9001 Quality Management System.
- ISO 14001 Environmental Management System.
- ISO 45001 Occupational Health and Safety.
- Fully Insured – Public Liability and Workers Compensation.

SECTOR EXPERIENCE

Barrier Signs has supplied and installed signage for a wide range of energy and infrastructure projects, including:

- Renewable energy facilities – solar farms, wind farms, and battery storage sites.
- Transmission and distribution networks – substations, control rooms, and switchyards.
- Electrical contractors and EPCs – compliant safety, identification, and directional signage.
- Government and council utilities – water, power, and emergency infrastructure projects.

WHY CHOOSE BARRIER SIGNS

- Over 40 years of operational excellence in signage design and manufacturing.
- End-to-end service – design and fabricate entirely in-house.
- Rapid turnaround capability for urgent and large-scale projects.
- Proven track record with Tier 1 contractors and public infrastructure clients.
- Commitment to quality, safety, and sustainability in every project.
