

# CAPABILITY STATEMENT

SPECIALISTS IN MARITIME,  
PORT & COASTAL  
INFRASTRUCTURE SIGNAGE

## WHO WE ARE

Established in 1982, Barrier Signs Pty Ltd is a trusted Australian manufacturer and installer of high-quality signage for maritime, port, coastal, and marine infrastructure environments. Located in Taree, NSW, our modern manufacturing facility is equipped with advanced digital printing, metal fabrication, and protective-coating technology suitable for saltwater and high-corrosion conditions.

With a team of 40 full-time employees, we manage all production in-house, ensuring complete control over quality, durability, compliance, and project scheduling. Barrier Signs regularly supports government agencies, port authorities, and marine contractors with durable, compliant, and purpose-built signage for high-exposure settings.

## PROJECT PARTNERS

# CORE CAPABILITIES - MARITIME SIGNAGE

## Design & Engineering

- Design of regulatory, navigation, hazard, exclusion zone, and operational signage for maritime and coastal environments.
- Collaboration with marine engineers, project managers, First Nations representatives, and stakeholders to reflect safety, cultural, and operational requirements.
- Development of wayfinding and public information signage for ports, wharves, jetties, and coastal recreation areas.
- Technical drawings and documentation prepared to port authority, council, and Australian Standards requirements.

## Manufacturing Excellence

- Production of marine-grade aluminium, stainless steel, and composite signage built for saltwater exposure.
- High-performance UV-resistant, corrosion-proof, and anti-fade coatings.
- Engineer-grade reflective materials suitable for low-light and night visibility.
- Anti-graffiti, powder-coated, and sealed finish options for long-term durability.
- Proven performance delivering signage for high-exposure, corrosive marine environments.

## COMPLIANCE & QUALITY

- Signage compliant with port authority guidelines, council requirements, and Australian Standards.
- Strict adherence to WHS protocols and marine safety operational requirements.
- ISO 9001 Quality Management System.
- ISO 14001 Environmental Management System.
- ISO 45001 Occupational Health and Safety.
- Currently undergoing accreditation for ISO 27001 Information Security Management System

## PROJECT EXPERIENCE

- Port Authority of NSW – Marine safety, navigation, and exclusion zone signage.
- Transport for NSW Maritime – Boat ramp, foreshore, regulatory, and safety signage.
- Local councils – Coastal hazard, beach access, and environmental protection signage.
- Marine contractors – Operational and safety signage for wharf and jetty upgrades.

## WHY CHOOSE BARRIER SIGNS

- 40+ years delivering signage for marine, coastal, and high-exposure environments.
- In-house design, manufacture, and installation for total quality and durability control.
- Specialised knowledge of marine safety, environmental conditions, and compliance requirements.
- Reliable delivery for regional, remote, and coastal project locations.
