

CAPABILITY STATEMENT

SPECIALISTS IN
RAIL NETWORK, SAFETY &
INFRASTRUCTURE SIGNAGE

WHO WE ARE

Established in 1982, Barrier Signs Pty Ltd is a trusted Australian manufacturer and installer of high-quality signage for the rail and transport sectors. Located in Taree, NSW, our purpose-built facility is equipped with advanced digital printing, metal fabrication, and finishing equipment capable of producing compliant, durable signage for complex transport environments.

With a skilled team of 40 full-time employees, we manage every stage of production in-house, from quote to design, manufacture and delivery. This ensures total control over quality, safety, and scheduling. Barrier Signs has extensive experience working with rail operators, contractors, and government agencies to deliver compliant, reliable, and long-lasting signage solutions across Australia's transport network.

CORE CAPABILITIES - RAIL NETWORK SIGNAGE

Design & Engineering

- Design of rail safety, platform, and operational signage to meet network standards.
- Collaboration with project managers, engineers, First Nations representatives, and stakeholders to ensure accuracy and cultural alignment.
- Development of wayfinding, passenger information, and emergency signage for stations and depots.
- Signage plans and drawings prepared to TfNSW, ARTC, and Australian Standard requirements.

Manufacturing Excellence

- Production of engineer-grade reflective, anodised aluminium, and composite signs.
- Sustainably sourced aluminium, timber and composite panels.
- Screen printing, digital printing, and engraving for control panels and signal rooms.
- Anti-graffiti, UV-resistant, and corrosion-proof coatings for longevity.

COMPLIANCE & QUALITY

- ISO 9001 Quality Management System.
- ISO 14001 Environmental Management System.
- ISO 45001 Workplace Health & Safety.
- Currently undergoing accreditation for ISO 27001 (Information Security Management System).
- Signage compliant with TfNSW Signage Standards, ARTC specifications, and AS/NZS 1319.
- Strict adherence to rail safety and WHS protocols.
- Proven record of working safely within active rail environments.

PROJECT EXPERIENCE

- Sydney Trains – Safety and operational signage for network upgrades and station refurbishments.
- Australian Rail Track Corporation (ARTC) – Reflective and regulatory signage for freight corridors.
- Downer / John Holland – Project and site signage for rail infrastructure projects
- Transport for NSW – Station and interchange wayfinding programs.

WHY CHOOSE BARRIER SIGNS

- Over 40 years delivering signage for critical infrastructure and transport networks.
- In-house design and manufacture for total quality control.
- Proven ability to meet demanding schedules and safety standards.
- Fast, responsive service for regional and remote locations.
