full product
guide

Site safety signage is critically important on construction sites, it helps protect workers, visitors, and the public while supporting legal and operational requirements. It is a simple but powerful tool that saves lives, reduces injuries, ensures compliance, and reinforces a strong safety culture on construction sites.

Below is a small sample of site safety signs that can all be customised for specific site requirements.

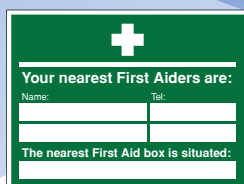

Tubular A-Frame
600mm x 600mm
900mm x 600mm

WHAT WE DO

Established in 1982, Barrier Signs Pty Ltd is a trusted Australian provider of signage and linemarking solutions for civil infrastructure and road construction projects.

With over 40 years of experience, we support councils, government authorities, civil contractors and linemarking companies with reliable, compliant, and high-quality traffic guidance and signage solutions.

From our in-house manufacturing facility in Taree on the Mid North Coast of NSW, and backed by a team of 36 full-time professionals, we provide end-to-end capability – ensuring quality, compliance, and dependable delivery.

Barrier Signs understands the realities of civil construction. Our systems, people, and processes are built to support tight schedules, staged works, and evolving site conditions, helping our clients deliver safe, compliant outcomes without delays.

WHAT WE MAKE

Our extensive street blade specification base with hundreds of councils allows us the ability to manufacture blades with a fast turnaround.

Barrier Signs is a preferred supplier of street blades to over 75 councils from Byron Bay down to Wollongong and west to Orange, Parkes, Dubbo, Bogan Shire and Bourke.

Below is just a small example of some of the street blades we have designed and manufactured.

NEED STENCILS?

We can create stencils with custom messages and graphics to any size you require. Using 1.6mm finished aluminium for strength and durability.
